5. There are 2 ways to connect your bank account: automatically with Plaid and manually entering your bank account info. Learn more about Plaid's safety and security policies here.

To connect automatically with Plaid (recommended and faster), click "Connect bank account." Then move on to step 6.

To enter your information manually, click "add bank account by entering account and routing numbers." Over the next few days, Routable will make two microdeposits to your account to ensure you have entered your information correctly. <u>Click here to learn how to verify your information once you receive these deposits</u>.

6. To connect using Plaid, click "Continue" to enter your bank account information.
