

# How Do I Ship My Car Through Hitch?

How do you currently move cars?

I have a transport partner I trust to provide good service and price

I use Central Dispatch to source my transport partners

I do not have a consistent transport process

I already use RunBuggy Marketplace

The auction coordinates all of my transports

**Draiver**

**Transport Company, Broker, or Penske Driver**

Contact [penske@runbuggy.com](mailto:penske@runbuggy.com) to activate the Central Dispatch integration for your store

[Use RunBuggy Marketplace](#) to move your vehicles

Contact [penskeops@runbuggy.com](mailto:penskeops@runbuggy.com) with any questions

Not currently covered through RB Hitch

Contact [penske@runbuggy.com](mailto:penske@runbuggy.com) to activate the Draiver integration for your store

[Add company's main contact](#) to your store's Hitch account

Once activated, you can push orders from Hitch to Central Dispatch

Contact [penskeops@runbuggy.com](mailto:penskeops@runbuggy.com) with any questions

[TP Onboarding](#) - receives invite link, logs in, adds users/drivers

Transporters selected off Central Dispatch must go through PAG verification

Once added, you can [assign the TP orders in RB](#)

Once verified, onboard the transporter to Hitch account

For [new orders](#), you can set the price and assign to TP

Business as usual with added bonus of RB Technology
